Carol Baker

Victoria Windsor, Content Manager at Reed Exhibitions, discusses the forthcoming Infosecurity Europe 2019 in London.

Victoria Windsor is the Group Content Manager, Infosecurity & Retail at Reed Exhibitions.

Previously, she has worked with companies like United Business Media, Capacity Magazine, Informa, Centaur Communications, and Risk Waters.

Victoria holds a BA (Hons) degree in Medieval and Modern History from University of Birmingham.

Q. Give us an overview of Infosecurity Europe.

A. **Infosecurity Europe** (<https://www.infosecurityeurope.com/>) is Europe's largest information security event and this year we expect it to be even bigger and better. It takes place from Tuesday 4th to Thursday 6th June 2019 at Olympia, Hammersmith in London, and brings together business, technology and cyber communities to discuss and discover the best way to protect organisations and individuals. This year is the 24th event and it attracts information security professionals from every part of the industry, including hundreds of exhibitors showcasing their products and services, industry analysts, the media and policy experts.

Q. What can we expect from this year's conference programme?

A. Infosecurity Europe is home to the world's largest complimentary conference programme with 240+ free to attend conference sessions. This year we have over 200 industry speakers lined up to take part in our conference, seminar and workshop programme, many from world-leading organisations, government bodies, technical evangelists and security 'rock stars'.

Our theme is "**Cybersecurity 4.0: Complexity, risk and resilience**" (<https://www.infosecurityeurope.com/conference/>). As organisations become increasingly complex, we're moving into a new area of cybersecurity – one where

In Conversation

increased connectivity, machine learning and rising cyber threats to infrastructure pose new and complex risks.

Q. Who will be this year's headline speakers?

- A.** This year we are delighted to have renowned broadcaster and author **Kate Adie** to deliver the opening keynote on Tues 4 June (10:15-11.05) on "Perspectives from the Frontline" which sees her presenting on 'Managing Risk and Building Resilience'. The session is designed to give a fresh perspective on risk – which our infosec professionals are dealing with on a daily basis.

Q. What else can visitors look forward to this year?

- A.** Our conference programme also has a number of other tracks including Strategy Talks (<https://www.infosecurityeurope.com/en/conference/Strategy-Talks/>), Tech Talks (<https://www.infosecurityeurope.com/en/conference/Tech-Talks/>), Talking Tactics (<https://www.infosecurityeurope.com/en/conference/Talking-Tactics/>), Security Workshops (<https://www.infosecurityeurope.com/en/conference/Security-Workshops/>), and Information Security Exchange (<https://www.infosecurityeurope.com/en/conference/ISE/>) to provide information security professionals with key insights to manage information and cyber risk, while Geek Street (<https://www.infosecurityeurope.com/en/conference/Geek-Street/>) brings together in-depth technical sessions where you can delve into the latest security research into exploits, vulnerabilities and threats, and an

immersive zone, with hands-on experiences and interactive learning challenges.

Visitors can also visit the Cyber Innovation Zone featuring the top innovative small companies from the DCMS UK's Most Innovative Small Cybersecurity Company of the Year competition, while the Start-Up Zone will feature companies less than three years old.
